ANESTHESIA PROGRAM TRANSITION

60 Clinicians Onboarded After Vendor Termination

Prominent 645-bed non-profit teaching hospital

THE CHALLENGE

In March 2023, this hospital received 90-day notice of vendor contract termination. Due to non-compete clauses, ALL current anesthesia providers had to be replaced simultaneously, with no disruption to surgical services.

THE ARK SOLUTION

- 1 ARK immediately leveraged its network to deliver locum tenens coverage at the site
- 2 All credentialing and scheduling completed before the transition date
- 3 C-suite collaboration: biweekly calls, access to internal scheduler, direct clinician-to-leadership connection
- 4 60+ anesthesia clinicians evaluated, accepted, and covering 40 daily service points

60

clinicians evaluated & accepted

40

daily points of service covered

90-Day

notice – zero disruption

THE PAYOFFS

- ✓ Anesthesia services maintained without interruption throughout the entire transition
- ✓ Legal non-compete risks navigated completely – no litigation exposure for the hospital
- ✓ Long-term trust relationship established: weekly leadership calls and ongoing program management
- ✓ Hospital leadership freed to focus on core operations while ARK managed all provider details
